

IN-OFFICE PROCEDURE CONSENT FORM

There are many times when our doctors need to perform an in-office procedure to be able to correctly diagnose problems of the ear, nose and/or throat. Although these procedures are almost always covered by insurance, they may appear as a separate charge from the office visit.

Some of these procedures include, but are not limited to:

- Nasal endoscopy
- Laryngoscopy
- Ear wax removal
- Hearing test/Audiogram
- Biopsies
- Sinus debridement
- BAHA fitting

Insurance classifies many of these codes as surgical, although they are performed in the office. Our office will make every effort to get prior authorization, and inform you of your responsibility. Given the nature of nuances in insurance policies it is your responsibility to contact your insurance plan if you have questions regarding your coverage.
